The purview of the A. G. Leventis Foundation is very broad; it encompasses preservation of the natural environment, agricultural and technical education in West Africa, the granting of scholarships, financing of publications, the restoration, preservation and promotion of the wealth of Hellenic civilization in Greece, Cyprus and elsewhere as well as the promotion of activities for social welfare. Hundreds of Greeks and Cypriots have been educated at foreign universities. In recent years scholarships have been granted exclusively for post-graduate studies abroad and at the University of Cyprus, and numerous grantees have obtained post-graduate diplomas.
