Corporate Social Responsibility has been at the core of Titan's philosophy ever since its early years and had a direct and permanent impact on its performance as a business enterprise, on its labor relations and on community involvement. It is now an explicit value of Titan Group and one of our governing objectives. According to our new approach to community involvement the Group Social Policy will be implemented in areas where the Group has knowledge and experience, the necessary conditions for adding value. The three areas on which we shall be concentrating our efforts are: a) Education, b) Environment, and c) Health and Safety in the Workplace. Within this context Cementarnica Usje is announcing the 6th Annual Scholarship Program for the Academic Year 2009-10 which will provide one scholarship to top university students from Macedonia for graduate studies at ALBA Graduate Business School in Athens, Greece.
